

Powder Data Sheet

Metallisation Part Number

99830/06

Material Description

Aluminium Bronze
Particle size -125 +45 µm

Related Specifications

BS EN ISO 14232-1:2017

Composition & Characteristics

Metallisation specification of chemical composition & characteristics* (where applicable)

Element	Composition	
	Min %	Max %
Al	9.00	11.00
Cu		Remainder
Fe	0.70	1.50
Others-Total		0.50

Particle Analysis

Particle size range to conform with
the technical supply conditions
listed in BS EN ISO 14232-1:2017
(Table 1) or International
equivalent

Characteristics

Manufacturing-Method Inert Gas Atomised

Packaging Form

Supplied in re-sealable 4.535KG (10lb) containers other size containers may be available upon request at time of placing order

Further Information
